My personal testimony. Yesterday i am not feeling well kasi nga may sipon ako runny nose. So i took 1 gummy in the afternoon mdyo may kati ang lalamunan ko. Then nawala namn at kagabi i took 2 gummies and i slept 9:30 which is not normal kasi late ako lagi nakakatulog around 11 or 12 na. Wow ang sarap tulog ko deretso . Woke up 5:30 am and much to my surprise no more runny nose . Proven and tested talaga ang barley gummies natin.

Hello Coach Jestin..

Sobrang effective ng Barley gummies!! Dati hirap akong bumangon tuwing umaga dahil sa body aches lalo na sa hips, likod, shoulders at legs. Akala ko meron akong vitamin D at calcium deficiency kaya yun ang tinake ko na supplements araw araw. Pero wala pa rin effect. Nung sinubukan ko ang Barley Gummies, nagulat ako na after a week nawala lahat ng sakit! No more body aches! Grabe, parang magic—ang gaan na gumising! The best! 🙏💖🎉

Ah ok. Yan kasi ung hesitation ko eh. Takoy ako sa green color nya. Ayoko kasi ng lasang dahon 😊

Ay naku don't worry po masarap sya hehe hindi ko lang makuha ung flavor mya exactly haha pero mas masarap sya sa acv promise 🤗

Ok cge. Naniniwala na ako. Will wait for my order nanlang ulit. Thank you 😊

Yun po kase gamit ko noe. I'm on my second bottle na po 🤗

Naka 6 bottles na kasi aki ng ACV and maganda ung results nya sa akin. I want to try barley kasi mas marami syang benefits. Hopefully makatulong din sya weight loss journey ko. Currently lost 2.5kg after 6 mos of eating ACV gummies.

After 5 months taking this Gummies, marami na ko napansin na nagbago sa katawan ko. Yung mga kuko kong madaling mabali nuon ngayon tumibay na siya, yung every other day na pag poops ngayon everyday na, yung mens kong 3days lang at patak patak nuon, ngayon regular na, yung bp kong tumataas minsan pinapababa niya.

Yan po ang mga napansin ko simula nung nagtake ako nitong Barley Gummies.

Suki na ko ng Barley Gummies. Almost 1 year na q nagtetake nito pinaka maintenance ko na sa highblood ko. Isa sa umaga at isa sa gabi. dito rin ako tumaba from medium to xl size.

sa mga nakucurious po sa lasa niya matamis po siya na masarap di mo malalasaan yung barley para lang siyang gummy candy.

Kaya magugustuhan to ng mga kids.Pwede po ito sa 7 year old up.

What is trigeminal neuralgia?

Trigeminal neuralgia (TN), also known as tic douloureux, is a type of chronic pain disorder that involves sudden attacks of severe facial pain. It affects the trigeminal nerve, or the fifth cranial nerve, which provides feeling and nerve signaling to parts of the head and face. Pain attacks typically last only a few seconds (but can last up to two minutes) and may occur over and over again several times a day. TN is a type of neuropathic pain, sometimes caused by an injury or nerve lesion.
